

GULFOOD GREEN

24-26 SEP 2024
DUBAI WORLD TRADE CENTRE

GOOD FOR YOU
GOOD FOR
THE PLANET.

#GULFOODGREEN

“

We seek to foster the sharing of knowledge and advance the adoption of new technologies and solutions that promote equitable access to food resources and the **sustainable production, distribution and consumption of food worldwide.**

H. H. Sheikh Mohammed bin Rashid Al Maktoum

Vice President and Prime Minister of
the United Arab Emirates and Ruler of Dubai

“

The world has an urgent task to transform food systems for a sustainable future and ensure everyone on the planet has access to safe, adequate, and affordable food.

H.E. Mariam Almheiri

Minister Of Climate Change
& Environment - UAE

GULFOOD
GREEN

THERE IS NO OTHER INDUSTRY

WHERE YOU CAN HAVE GREATER IMPACT THAN FOOD

of global greenhouse gas emissions are estimated to come from the food industry

Severe food insecurity affected

of the global population (2.4 billion people) in 2022

Production of meat

worldwide causes twice the pollution of production of plant-based foods

THERE IS NO OTHER INDUSTRY

WHERE YOU CAN HAVE GREATER
IMPACT THAN FOOD

● 1.3 billion tons

of food is lost / wasted annually, equating to one-third of global food production

● 660 million

people may still face hunger in 2030, in part due to lasting effects of the COVID-19 pandemic on global food security

● Food Tech

is shaping the future of food, giving us a solution to both world hunger and environmental sustainability

● Global food tech market estimated to grow to

\$342 billion

by 2027

TIME FOR THE INDUSTRY TO **TAKE A STAND**

- The **world's largest** responsible food and agriculture event aggregating the globe's biggest actors
- Convening global ecosystem players and leaders and putting the **biggest agendas** on the table
- Facilitating cross-border collaboration to **accelerate the resolution** of some of the world's most pressing ecological and human health challenges
- **Promoting a new green food economy:** from novel ingredients to next-gen products & processes reducing environmental impacts whilst optimising health and nutrition
- **The biggest food and agtech startup showcase** - presenting emerging technologies and solutions with the potential to transform food systems and have a powerful impact on both people and planet

PROPELLING

SUSTAINABILITY & INNOVATION

TO THE TOP OF ALL STAKEHOLDER AGENDAS

- The inaugural Gulfood Green will bring together the global community to forge a path to food security and sustainable, nutritious food development.
- A global platform to ignite, influence and continue conversations within the wider community, to create a momentous shift towards more resilient and sustainable food production and consumption, setting a precedent for the future.
- A global exhibition and summit promoting healthier and sustainable food systems, focused on fresh produce, plant-based alternatives and groundbreaking sustainable and commercially scalable products and solutions that can have a positive impact on the food industry.
- International businesses and leaders, influential speakers, the world's top startups, innovators and food revolutionaries will unite with purpose to collectively inspire new solutions through innovative thinking, multi-disciplinary expertise and collaborative action.

COP²⁸
UAE

CONTINUING
THE MOMENTUM

UAE IS THE HOME OF COP28

WHERE SUSTAINABILITY IS TAKING CENTRE STAGE

With global efforts focused on climate change and carbon emissions, Gulfood Green will draw on the lessons of COP28 by continuing to foster the dialogue, uniting prominent global innovators to exchange their experiences, challenges, and initiatives that are advancing the transition to sustainable food systems. Gulfood Green exemplifies the commitment to making green living a lasting way of life.

THE EVENT

AT A GLANCE

AWARDS

Celebrating excellence in sustainability and encouraging green best practice across the food & beverage value chain.

Nourishing the world in a *safe, responsible and sustainable* way.

EXHIBITION

Presenting the entire Fresh Produce value chain, from ready-to-eat fresh perishables through to innovations in production, logistics, storage, and recycling.

FOOD FOR FUTURE SUMMIT

Setting the agenda for the most sustainable, secure future of food, the Leaders symposium programme will host international ministers, C-Level executives, and visionary innovators, all aligning strategies to ensure sustainable and nutritious food for all, and make greener lifestyles more accessible and enduring.

GULFOOD GREEN INNOVATION STAGE

A special forum where exhibitors can discuss future challenges affecting the international fruit and vegetable business as well as present a broad range of technologies and scientific innovations ranging from logistics and cold chain through to technologies that can positively impact climate change and improvements in nutrition

INVESTOR LOUNGE

Providing a curated business-to-Investors matchmaking programme set in a private section of the show, designed to connect qualified exhibitors and investors helping them build fresh and reliable relationships. This is an excellent opportunity to have valuable and efficient pre-scheduled meetings to enhance the show experience and help participants maximise their commercial opportunities.

STARTUP INNOVATION PROGRAMME

Combining forces with Gulfood Agrotech, Gulfood Green offers pioneering startups the opportunity to meet with investors, government-funded incubators, and corporate VC's, all looking for exciting commercial opportunities.

قمة مستقبل الغذاء

SETTING THE AGENDA FOR THE MOST SUSTAINABLE, SECURE FUTURE OF FOOD

Originally launched in 2022 and hosted by H.E. Mariam AIMheiri, the UAE's Minister of Climate Change and Environment, The FOOD FOR FUTURE SUMMIT, is a powerful gathering of international ministers, NGO's, multinationals, agrifood tech innovators, investors and startups, committed to improving access to a greener food future. The summit has grown a unique and influential international following of powerful decision-makers from every corner of the globe, representing all parts of the Food and Agriculture value-chain.

COMBINING FORCES &

FORGING LONG-TERM PARTNERSHIPS

Women-owned, Dubai-based, impact-driven startup that aims to create an opportunity for every food scrap to become a solution rather than a burden on society and environment.

To reduce the amount of food wasted, and position Dubai to be the first city in the region to achieve zero food waste.

Driven to secure a sustainable future for all. By leveraging experience across future-critical sectors and modern, scalable technologies, advancing sustainability agendas for companies, cities and governments.

Plastic waste collected on-site and recycled, and with the help of sustainable manufacturing solutions provider Dgrade, turned into a sustainable fabric and merchandise that's redistributed to select visitors.

GULFOOD GREEN

SCHOOLS PROGRAMME

- Help teach the next generation about crucial efforts to protect the planet.
- Play our part in helping schools makes the transition to sustainable, healthy school meals.
- The scarcity of these programmes creates an opportunity for student cooking programmes to be developed, implemented, and evaluated with the goal of providing invaluable life skills and food literacy to these groups.
- Partner with hotels and restaurants across Dubai/globally to initiate workshops in their kitchens/at schools
