

Companies considering participating at international trade shows are facing huge challenges in the preparation (travel arrangement, freight forwarding, stand design etc.), administrative consequences, communication with the trade show organizers (space, rules and regulations etc.). Exhibiting at a national pavilion (NL Pavilion) or exhibiting at an individual basis organized by a professional will ensure them to match their needs and add value.

Orange Exhibition Management (OEM) is founded in 2016 by Caroline Cramer, a dynamic, enthusiastic and experienced international exhibition- and national pavilion organizer with 20 years of experience in the industry.

Objectives of OEM:

- To support companies who participate in international exhibitions by organizing national pavilions
- To support companies who are participating at international exhibitions on an individual basis
- To act as agent for international exhibition organizers (DWTC)
- To represent suppliers of exhibition related technology

Your gateway to the world of international exhibitions

Dear visitor,

Welcome to the Dutch pavilions at "Gulfood 2026"!

The Dutch offer you, as usually, a wide range of quality products in food, food ingredients and food processing technology, spread over various halls in the exhibition. All Dutch companies are eager to meet you and discuss business opportunities with the Netherlands. I invite you to take a look at this brochure and get to know the participating Dutch companies.

The agri-food sector is considered to be one of the most innovative economic sectors in the Netherlands. Consumer's protection, efficient use of resources and corporate social responsibility are high on the agenda in product development. As second largest exporter in the world of agri-food products, we, as the Netherlands, have indeed to keep up this position by performing high quality which is guaranteed complying with the international standards or even surpassing them.

The agri-food representation from the Netherlands in the Gulf region is coordinated from the Embassy in Riyadh and the Consulate General in Dubai, and is supported by all other Embassies in the region.

The Dutch companies in the NL Pavilions are looking forward to welcoming you!

Caroline Cramer

Choosing Vitelco means being able to choose from a wide range of high-quality veal products, sourced from our own calves. We are one of the largest veal abattoir and deboning companies in Europe. We can supply **white** and **rosé veal** and **young beef** in whatever cut or portion you need, boneless or bone-in, fresh, vacuum packed or frozen.

Involved in the entire chain

We process our veal into premium, made-to-order products in our own abattoir, cutting plant and deboning hall. We deliver on this promise every day by being involved in the entire chain, making and keeping agreements with all the links in the chain, and constantly monitoring our quality and processes. Maintaining control of the entire process means that, together with our chain partners, we can guarantee the quality we as a family business stand for.

EMAIL contact@vandriegrup.com

WEBSITE www.vandriegrup.com

We are a genuine Dutch family business. In the 1960s, our founder, Jan van Drie senior, started rearing a few calves that dairy farmers were unable to use to replace their own dairy herd. It turned out to be a good strategic choice: Jan's activities developed into the VanDrie Group. The company is still fully owned by the Van Drie family and is characterized by chain integration: the company has control over all the links in production. We are producers of veal and beef, calf feed, dairy raw materials and calfskins.

Veal, fresh or frozen, carcasses, primal cuts, special cuts, deskinmed and tripes, and offals.
Halal slaughtered and certified.
